**FLAMORT 'T'
Class 'A' Fire Retardant
for Fabric**

(For Interior Use Only)

Description:

Flamort - T is a clear, non-toxic, fire retardant coating for textiles made of natural fibers such as cotton, wool, silk, viscose rayon, muslin, cotton canvas, cheesecloth, and burlap. Flamort-T is water-based and easy to apply by spray or dip methods.

Fire Standards:

Flamort-T has passed the NFPA 701 Vertical Burn Test, CA. State Title 19 Health and Safety Code, FAA Section 25.853(b), and the ASTM-E84 Flame Spread Standard.
Class 'A' Flame Spread Standard.

Flame Spread-5 Smoke Development-5

Application:

On a clean, dry, surface (uncoated), apply by spray or dip method, until fabric is saturated. Average rate of application 100- 300 sq.ft. per gallon. Always pre-test a sample to ensure desired results. Dye changes and/or shrinkage may occur. Wash hands, and clean equipment with soap and water. Washing will remove the fire retardant, however, fabrics may withstand 2-3 dry cleanings without re-treatment.

Caution:

Keep Out of Reach of Children. Avoid prolong contact with skin, and breathing of the mist. Provide adequate ventilation when spraying. In case of contact with eyes, flush with water. Wash hands after handling

Warranty:

We guarantee the standard quality of this material and its adherence to our specifications. We expressly disclaim responsibility for its use, it being the responsibility of the buyer to determine whether or not the material is fit or suitable for treatment. Users are advised to conduct their own tests to determine the safety and suitability of the application.
