

PRODUCT DATA SHEET

FLAMORT 'X' Fire Retardant Coating

DESCRIPTION:

FLAMORT X is a clear, water-based fire retardant formulated for use on freshly cut Christmas Trees. Other uses include: Palm fronds, foliage, rattan, raffia, matting, sisal cocoa, hemp fiber, paper, cardboard, dry grass, woven palm mats.

FLAMORT X meets the requirements of flame resistance established by the California State Fire Marshal in the California Health and Safety Code, Section 13115 (Small Scale Vertical Burn Test comparable to NFPA 701)

FLAMORT X is CA. State Fire Marshal Approved and Registered – **REG. # C-00411.**

APPLICATION:

Stir well before using. Items to be treated must be clean and dry. Applications are by dipping or spraying.

Pesticide type sprayers or paint sprayers may be used. Users must determine the appropriate method of application to meet the fire retardant standards. On flat surfaces, the rate of application is 150 – 300 sq.ft. per gallon, depending on the thickness of the material. Flamort X may treat three 5' trees on average, depending on the density of the trees.

When treating trees, two coats are recommended. Flamort X **will not** be effective on pine cones.

Always treat a sample to ensure desired results.

CAUTION:

Use with adequate ventilation. After using, wash hands with soap and water. Users with sensitive skin should wear rubber or latex gloves. In enclosed areas, wear a mist mask (NIOSH approved N95 Particulate Respirator). Puddles are slippery. May cause eye and/or skin irritation. Do not take internally. Keep containers closed when not in use, and store in plastic containers (not metal). Store in room temperatures.

KEEP OF REACH OF CHILDREN AND PETS. SDS Available Upon Request.

As it is beyond our control to monitor and control the use of our product, buyers, sellers, and users agree to assume all responsibility and liability for loss, damage, or injury. We warrant only the quality of the product, and any product proved to be defective will be replaced. Users are advised to conduct their own tests to determine the safety and suitability of the product and its' applications.
